

FEATURES

- Cold and hot Ultrasound technology
- Humidification capacity 300 ml /h (cold steam)
400 ml /h (hot steam)
- Tank capacity: 5l
- Touch controls
- Hot steam function
- Full tank alarm
- Humidifiable volume: 50 m³

WATER PRE-HEATING

Thanks to the pre-heating function the product has an highest performance, improving the quantity of the humidity in the air: 30%* more.

STEAM SUPPLY

It's possible to decide the speed of the steam: minimum, medium, maximum, through two different ways thanks to the double hole on the top spout.

DESIRED HUMIDITY

Set up the desired humidity from 40% to 70%.

TOUCH DISPLAY

Touch technology: allow to enter to all functionalities in a simple and immediate way.

* Compared to the itself product used in normal conditions

		AQUA PURE
	Code	99482
	EAN	8021183994827
Humidification capacity (cold steam / hot steam)	ml/h	300/400
Humidificable volume	m ³	50
Power absorption (cold steam / hot steam)	W	30/90
Heating capacity		3
Tank capacity	l	5
Dimensions (W x H x D)	mm	248 x 355 x 130
Weight (without packing)	Kg	2,25
Power supply	V-F-Hz	100-240V, 50/60Hz
